

## WHPA CQM Standard 180 User Guide – Technical Working Group Status Report – November 20, 2017

WHPA CQM Standard 180 User Guide – Technical Working Group		
<b>Chair:</b> Marc Pickett, AMS		
<b>Last Committee Meeting:</b> October 24, 2017	Agenda Items: <ul style="list-style-type: none"> <li>Recalibrate Working Group 2017 Goals</li> <li>Measurement, Data Collection and Report Making</li> <li>Action Items and Key Decision</li> </ul>	 Meeting Notes 10-24-2017.pdf
<b>Current Status of Work Products</b>	No work product was finalized or submitted for 2017. The plan is to incorporate the User Guide Customer Communications Working Group 2017 work product content into a combined effort to produce additional chapters in 2018 - support permitting. There is significant work to complete portions of the work product. Ownership of sections/chapters for work outside of Working Group meetings needs to occur. Still need a "draft" document to be authored by chair/member and member commitment to revise and update. Last meeting notes provide discussion details about scaled back goals for the next phase of progress (Embedded above).	
<b>Status &amp; Level of interest in the Committee</b>	There is quite a high level of interest for continuing to meet and develop a user guide. This is highly dependent on meeting/work product support outside current membership.
