

WHPA Residential Quality Installation Committee (RQI) Status Report – November 20, 2017

WHPA Residential Quality Installation Committee (RQI)		
Chair: Buck Taylor, Roltay, Inc		
Last Committee Meeting: June 21, 2017	<p>Agenda Items:</p> <ul style="list-style-type: none"> • RQI Proposed Data Specs – relevance given ACCA 5 and 9 • SCE Program Update – • Role of the RQI Committee Moving Forward <ul style="list-style-type: none"> - Is there a need to have meetings - What should be the focus of the Committee? 	 6-21-17 RQI Committee Meeting MI
Current Status of Work Products	The RQI Committee decided to meet on an as-needed basis in 2017. They opted not to develop SMART goals and thus, do not have an implementation plan	
Status & Level of interest in the Committee	<p><i>“For the time being, we do not anticipate the need for any working group. If SCE DOES somehow manage to aggregate some program data, the group may be interested in seeing the data and then hearing from SCE what they think it means.</i></p> <p><i>When the committee actually SEES some actual raw data from California, we will convene and discuss.</i></p> <p><i>We are not interested in wasting our time with another Work Order 32 debacle.”</i> (Buck Taylor, Chair)</p> <ol style="list-style-type: none"> 1. <u>The RQI Committee</u> will meet in the future on an ad hoc basis, given that most members do not see a need to participate due to not much going on with residential HVAC programs in California. 2. <u>The RQI WG</u> – there is no need for such a working group because the data is already being collected using the ACCA standards 5 and 9 created in 2007. According to the group, the focus should be on data analytics. 	 Email Regarding Status of RQI Commit
