

WHPA Existing Buildings Energy Efficiency (EBEE) Action Plan Committee
Pacific Energy Center (PEC) HVAC Survey Update
(as of May 4, 2017)

Per WHPA Existing Buildings Energy Efficiency Action Plan Committee Co-Chair request, notification of the “Input Requested for PG&E PEC Commercial HVAC Courses” was emailed to the roster on April 27, 2017.

TRC SOLUTIONS DISTRIBUTION EMAIL (On Behalf of PG&E Pacific Energy Center)

“Hello,

“*PROVIDE INPUT ON FREE HVAC CLASSES PROVIDED BY PG&E PACIFIC ENERGY CENTER*”
“*CHANCE TO WIN \$200 RAFFLE*”

We are reaching out to you with an opportunity to provide input on the educational programs provided through the PG&E Pacific Energy Center (PEC). We are specifically seeking input on our HVAC curriculum from individuals located in the PG&E service territory with jobs related to commercial building HVAC systems (design, construction, analysis, maintenance/management).

The Pacific Energy Center (PEC) has provided publicly-funded (free) trainings, advice and measurement tools to California commercial building customers since 1991. You can learn more about our services at www.pge.com/pec.

We would appreciate it if you took the following survey by May 17th. It should take just 10-15 minute to complete. <https://www.surveymonkey.com/r/XJDV82W>

At the end you will be asked to input your contact information to be entered in a raffle to win one of two \$200 gift cards.

*Gwelen Paliaga, PE
Technical Director, TRC Energy Services
On Behalf of PG&E Pacific Energy Center”*

INTRODUCTORY OVERVIEW (from Megan Dawe with TRC Solutions)

“This survey will help PG&E develop a relevant and effective commercial building HVAC curriculum at the Pacific Energy Center (PEC). Survey questions gather feedback on the importance of specific skill development trainings, courses around emerging technologies and solutions, experience from previous PEC courses, and recommendations for future courses or other modifications to PEC course offerings. The survey is administered by TRC on behalf of PG&E’s PEC. Survey responses will be used to identify modifications and additions to PEC commercial HVAC curriculum. The survey should take 10-15 minutes to complete. We look forward to gathering your feedback. You can reach Megan Dawe with any further questions at mdawe@trcsolutions.com.”

RESPONSE DEADLINE

The deadline has been extended to May 17, 2017 (from May 5th).

COMMUNICATION OUTREACH (from WHPA Resources)

- WHPA Staff (Bonnie Gustavson) distributed the initial survey information to the EBEE and WE&T Committees per request.
- WHPA Staff (Wendy Worrell) notified all WHPA Staff of the survey information for distribution to other Committees/Working Groups as deemed appropriate.
- WHPA EBEE Co-Chairs encourage Member networking, such as Valley Contractors Exchange (Kate Leyden) reaching out to her Builder Exchanges/Contractor Associations for their input.
