

February 9, 2015

Dear WHPA Members,

The California Energy Commission (CEC) has requested that we provide you with this notice of 45-day language for the 2016 update of Title 24. ("45-day language" is a term used to indicate the length of time the public has to comment on documents, once released.)

Detailed information on this pre-rulemaking period can be found on the [CEC website](#) and the [Regulatory Policy Activity and Resources](#) page on the WHPA website.

We will continue to send these periodic notices as additional information on policy comes from the IOUs, CPUC, and/or CEC.

Best Regards,

Shea Dibble and Ellen Steiner
WHPA Co-Directors

Subject: Notices of Proposed Action - Rulemaking on 2016 Building Energy Efficiency Standards

The Notices of Proposed Action for the 2016 revisions to the Title 24 Part 6 Building Energy Efficiency Standards, and separately for the voluntary provisions in Title 24 Part 11, are now available on our website, here:

www.energy.ca.gov/title24/2016standards/rulemaking/documents/

These are provided in advance of formal publication by the Office of Administrative Law to better facilitate public review and comment. The 45-Day public comment period will begin on the date of formal publication by the Office of Administrative Law, currently anticipated to be February 13, 2016.
