March 24, 2015

New Tomorrows for Today's Buildings Existing Building Commissioning

Bob Baker, WHPA Co-President and a AHSRAE Fellow, is one of four presenters in a three hour ASHRAE website on the benefits of commissioning of existing buildings. This free webcast can be viewed in real time or on demand, and offers AIA and CBGI credits. This webcast program is sponsored by the ASHRAE Chapter Technology Transfer Committee.

Participants will hear industry experts define the benefits of existing building commissioning for the environment, occupants, operations staff, and overall ownership costs. They will learn how to manage the commissioning process to minimize the impact on building functions and occupants, and how to integrate elements of existing building commissioning into the operation and maintenance staff's daily activities.

Participate in the upcoming **FREE** ASHRAE Webcast to hear industry experts who will define the benefits of existing building commissioning for the environment, occupants, operations staff, and overall ownership costs. Viewers will learn how to manage the commissioning process to minimize the impact on building functions and occupants, and how to integrate elements of existing building commissioning into the operation and maintenance staff's daily activities.

This webcast program is brought to you by the ASHRAE Chapter Technology Transfer Committee.
