

DECEMBER 22, 2017

WHPA Members,

Happy Holidays from all your colleagues in the WHPA!

At last report, the HVAC Stakeholder Engagement (HSES) and Chartering Committees were planning to present initial Articles of Incorporation and Bylaws needed for incorporation and pursuit of tax-exempt status to the Executive Committee for consideration at their 13 December meeting.

Due to the need for additional discussion and deliberation, that timeline for presentation and review has now pushed to a January 17, 2018 meeting of the Executive Committee.

For additional information or to direct questions, comments or concerns you may have, please contact one or more of the following Committee chairs:

- Chartering Committee – Dave Dias (JCEEP) – DaveD@smw104.org
- HSES Committee – Paul Thomas (SDG&E) – pthomsas@semprautilities.com
- HSES Committee – Bob Wiseman (IHACI) – bwiseman@cphac.com
- Executive Committee – Paul Thomas (SDG&E) – pthomsas@semprautilities.com
- Executive Committee – Ron Jarnagin (ASHRAE) – ron.jarnagin@att.net

On a related note, as the transition to the next phase in the WHPA's evolution takes place, for an as-yet-undetermined period of time the WHPA website (www.performancealliance.org) will remain static. It will be online and available for reference, but updates will not be made until the next source(s) of funding is/are solidified and allow for regular maintenance.

For more information on the website, please contact one of the following:

Mark Salavitch (PG&E) – MUS8@pge.com
Mark Lowry (BBI) – mark.lowry@betterbuildingsinc.com

Sincerely,

The WHPA Executive Committee
